WELCOME TO WAHIAWA GENERAL HOSPITAL

Wahiawa General Hospital (WGH) is dedicated to providing the highest quality of care possible to each and every patient, in a safe, caring and compassionate environment. Our commitment to exceptional care positions WGH as an important part of the continuum of healthcare for Central Oahu and the North Shore.

OUR COMMUNITY
OUR HOSPITAL
OUR FUTURE
TOGETHER

Our 16-bed acute care and 115-bed skilled nursing and rehabilitation facility are staffed and equipped for multiple levels of patient care. We continue our mission as a non-profit organization, bringing the finest technology and personal care to the communities we serve. Founded on a need that began during wartime crisis, we have expanded to meet the growing needs of the Central Oahu and North Shore communities. As we reflect on more than seven decades of continuing service to our ever-expanding community, we look to even greater achievements as your healthcare resource.

MISSION STATEMENT:
Meeting the healthcare needs and exceeding the expectations of our patients and customers by partnering with other community organizations to address the medical care and wellbeing of the communities of Central Oahu and the North Shore. By using the total teamwork/quality-first concepts. By implementing cost effective operational solutions. By addressing the emerging healthcare needs of the people we serve.

VISION STATEMENT
Recognized for delivering high-quality healthcare service at every level of the organization to be the healthcare provider of choice for the people of Central Oahu and the North Shore. To provide high-quality healthcare services, close to home. To be the workplace of choice for our employees and medical providers while confronting whatever challenges the future brings.

128 LEHUA STREET
WAHIAWA, HAWAII 96786
Emergency Department:

Wahiawa General Hospital’s Emergency Department (ED) treats over 20,000 patients annually and is the primary acute care facility for Central Oahu and the North Shore.

A $3.5 million dollar renovation of the emergency department completed in 2017 included:

- A complete renovation of the emergency room layout allowing for a “fast-track” concept increasing patient flow and reducing wait times.
- Expanding patient capacity from 7 beds to 16 beds
- Establishing private patient treatment rooms
- Upgrading all patient monitoring equipment
- Enhanced staffing levels to ensure optimum care

Wahiawa Nursing & Rehabilitation Center:

Wahiawa Nursing & Rehabilitation Center (WNRC) is a 115-bed skilled nursing and rehabilitation facility located in the heart of Wahiawa town. In addition to skilled nursing and rehabilitation services, respite, hospice, and intermediate care services are also available.

The WNRC staff consists of administration, nursing, social services, activities, utilization review, health information management, and rehabilitation.

Residents are cared for and treated like family. For over 50 years, WNRC has been serving the community and continues to be the preferred nursing and rehabilitation facility for residents of Central Oahu and the North Shore.

Critical Care Unit:

The five-bed Critical Care Unit (CCU) treats adults and offers full coverage 24/7. CCU patients receive care from a highly skilled interdisciplinary team that rounds daily and focuses on evidenced-based practice and improved patient outcomes.

Medical Telemetry Unit:

The 16-bed Medical Telemetry Unit (MTU) provides care to a variety of acute patient needs. The unit features advanced telemetry monitoring capabilities for cardiac issues as well as negative air pressure rooms.

Daily multidisciplinary rounding by our onsite specialty physicians provides high-quality care for our patients. Readily available nurses serve as patient advocates who are committed to achieving the best possible outcome for each patient.

Cardiopulmonary Services:

The Cardiopulmonary Services Department is staffed with certified respiratory care practitioners as well as registered diagnostic cardiac sonographers.

Services include:
- Echocardiogram (ECHO)
- Electroencephalogram (EEG)
- Pulmonary Function Test (PFT)

Outpatient Rehabilitation:

The Outpatient Rehabilitation team provides physical, occupational, and speech therapy treatments to patients who are experiencing limitations in function resulting from injury, disease, or other causes.

Diagnostic Imaging:

Our newly renovated clinic offers a clean, quiet and secure environment for one-on-one rehabilitation and preventative care services provided by our highly specialized clinicians.

Laboratory:

Wahiawa General Hospital’s laboratory provides high quality clinical and pathology services. We serve both inpatients and outpatients with a full range of laboratory procedures including transfusion and phlebotomy services for reference labs and clinics.
